

Subject:

## Announcement of New AFM Revision

Date:  
25/03/2026

Approved by: Ing. Vladimír Pekár  
Head of Design Organisation

Compliance Information:

**Mandatory**                      ~~Recommended~~                      ~~Optional~~                      ~~Informational~~

Affected Models/ Serial Numbers:

SHARK 600

Reason/Purpose:

The purpose of this service bulletin is to announce the release of **Revision G** of the Aircraft Flight Manual (AFM), document number **SHARK600\_MA\_075**, in its English mutation. Operators must ensure that their manuals are up to date to comply with current operational standards.

Description of Issue/Modification:

The AFM SHARK600\_MA\_075 has been updated to Rev. G.

The following significant modifications have been made:

Added sections

- 2.13 - Canopy limitations
- 3.22 - Electrical power loss in flight
- 3.31 – Smoke or fumes / Electrical fire
- 4.1 – Canopy operation
- 7.8 – Canopy – description of canopy lock added

Modified sections:

- 4.2.1 Boarding
- 4.2.5 Taxi
- 4.2.6 Engine function - Propeller control check procedure clarified
- 7.5 Electric system – whole section updated

Instructions:

A PDF file of SHARK600\_MA\_075 Rev.G accompanies bulletin email, or it can be downloaded from the [SHARK.AERO website](#).

Print the updated AFM pages on A5-sized sheets.

Remove the old pages from your current AFM binder and replace them with the corresponding new pages from Revision G.

Parts Required: NIL

Material Information: NIL

Weight and Balance Information: NIL

Effectivity:

This bulletin applies to all SHARK 600 aircraft.
